Professional Experience

Service Desk Manager

Feb 2024 – Present

Intuit India Product Development Centre, India & United States

- Engineered and optimized performance dashboards in ServiceNow and Amazon Connect for the APAC region, delivering actionable real-time analytics that streamlined ticket-handling workflows.
- Communicated effectively with business and IT stakeholders, providing updates and addressing their concerns. Shared weekly performance reviews and feedback with the employees.
- Drove month-end closing activities from an IT support perspective, collaborating with business teams to ensure timely and accurate reporting.

- Conducted continuous reviews of service bottlenecks and customer pain points to champion strategic service improvements, materially reducing wait times and friction points.
- Lead end-to-end IT operations across Bangalore and Pune campuses, ensuring seamless business continuity and uninterrupted technology support for 5,000+ employees.
- Ensure the team is efficiently and effectively addressing consumer issues and meeting service level commitments. Collaborate with various teams/people/customers to understand priorities and vision.

- Involve in customer installation and training programs. Select, develop, and evaluate personnel to ensure the efficient operation of the function.
- Manage the complete IT asset lifecycle and Mobile Device Management (MDM), streamlining onboarding/offboarding processes, optimizing asset utilization, and reducing deployment turnaround times.
- Serve as the primary escalation lead for critical site-level IT incidents, driving rapid issue resolution **while maintaining 100% compliance with global IT governance standards.**

●

Senior Service Desk Analyst

Feb 2021 – Feb 2024

Intuit India Product Development Centre, Bangalore, India

- **Promoted to Team Lead, managing 20+ technical support professionals delivering enterprise IT services across the APAC region.**
- Served as the primary L2/L3 technical escalation point, resolving complex production incidents and ensuring timely issue resolution.
- Monitored service license usage and needs, keeping a close eye on total service costs and optimizing resource allocation.
- Led strategic infrastructure initiatives, including Microsoft 365 migrations, Druva inSync endpoint deployments, and PingID multi-factor authentication implementations across the region.

Service Desk Analyst 2

Nov 2015 – Feb 2021

Intuit India Product Development Centre, Bangalore, India

- **Omni-Channel Support:** Delivered universal L1/L2 service support across remote, onsite, and chat channels, maintaining top-tier resolution speeds and ticket-handling efficiency.
- **KCS Coaching & Mentorship:** Acted as a certified Knowledge-Centered Service (KCS) Coach, authoring authoritative technical documentation and onboarding new service desk hires.
- **Systems Administration:** Managed day-to-day administration for Office 365, Exchange, Enterprise Mobility Management (EMM), Druva, and ServiceNow reporting tools.
